## M2 Public Business Law

The M2 Public Business Law degree is the stepping stone for a national or international career as a company director, central or local government official or even a regulatory agency manager. The course provides students with the necessary skills in regulations and contracts. Firstly, they are educated in business regulatory frameworks, in order to acquire the skills to decrypt, analyse and ensure the application of regulations; secondly, they are trained to be experts in the procedures of the bidding process for national and international calls for tender, as well as being able to create such procedures, monitor and manage the stages and establish the procurement or application strategies required.

The course meets the new demands of the national and international job market characterized by an extensive transformation in business due to globalisation and the financialisation of economic activities.
